Major Regional Satellite Broadcaster Invests in HD Training Package

Hong Kong August 20th. Detail conducted the first course as part of a whole HD training package for a regional satellite broadcaster based in Hong Kong. The three day course was conducted on the broadcasters premises and was well supported by a number of manufacturers

Sony, Snell & Wilcox and Shun Hing Technology Co., Ltd and Tektronix all provided their latest HD equipment to support the hands on sessions. Five engineers and operational staff attended the course and all agreed that it was a great opportunity to catch up with the latest HD technology in an informal learning environment.

Detail Solutions provides a range of training courses covering diverse subjects from introductions to digital television to advanced courses in digital transmission technologies. Mark Parlett, founder, commented, "With most of Asia turning to High Definition this course is proving extremely popular"

Detail Solutions can provide a range of customised training packages, from executive briefings for non technical staff wishing to acquire an overview of High Definition and its challenges to full knowledge up-grade packages for broadcast technologists conducted over several days.
