

## Press Release

15<sup>th</sup> of December 2007

### Detail Solutions Introduces New Courses 2007

Detail Solutions can now provide a range training packages to keep engineers up to date with latest advances in broadcasting technology. Current courses are

- Basics of Digital Television
- HDTV Fundamentals
- Digital Equipment Evaluation
- SDI and MPEG Fundamentals
- Applied MPEG and DVB
- Advanced Digital Transmission, DVB S2, MPEG4 Etc.

Planned new courses for 2008

- Introduction to tape-less technologies
- Practical File Based Broadcasting
- Mobile television fundamentals

Also to be introduced in 2008 are executive technology briefings. These half or one day presentations will be aimed key management personnel who are not necessarily technical. They will provide an easy to digest introduction to the essential features and business issues arising out of new and emerging technologies. The Presentation style will be non technical and jargon free.

All Detail Solutions training course can be held at your convenience and are normally delivered on sight minimising disruption to shift patterns and daily operations.

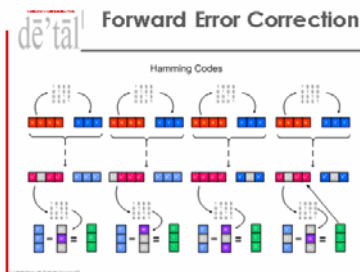

Practical Session for SDI to MPEG fundamentals

SDI to MPEG fundamentals

Training packages come with a comprehensive training notes and support materials. Teaching is reinforced with exercises and practical hands on sessions using the most up to date equipment.
